- Oversee logistics, production schedules, vendor management, staffing, and on-site delivery
- Ensure operational readiness, risk management, and contingency planning across all projects

Systems, Processes & Operational Excellence

- Design, implement, and continuously improve operational systems and workflows across the business
- Develop and enforce Standard Operating Procedures (SOPs) across all departments
- Build scalable structures for project delivery, pipeline tracking, and reporting
- Ensure consistency, efficiency, and quality across all operational outputs

Digital Workflow Ownership

- Own and lead the rollout, adoption, and digital workflows the company's operational backbone
- Design dashboards, workflows, automations, and reporting frameworks across all departments
- Ensure workflows serves as the single source of truth for all projects and operations
- Train teams, monitor usage, and drive compliance and continuous improvement

Cross-Functional Leadership

- Establish clear reporting rhythms, accountability structures, and communication flows
- Identify and resolve bottlenecks across departments
- Strengthen collaboration and alignment across all project teams

Budgeting, Resource Allocation & Financial Oversight

- Oversee operational budgets across all projects, ensuring efficiency and cost control
- Support accurate forecasting and resource allocation across the portfolio
- Work closely with Business Development and Finance to align delivery with commercial goals
- Ensure financial discipline without compromising delivery quality

Vendor, Supplier & Venue Strategy

- Build and maintain a high-quality network of vetted suppliers and partners
- Oversee vendor selection, negotiation, and performance management
- Ensure consistent quality, reliability, and value across all suppliers
- Maintain structured vendor databases and cost benchmarks

Quality Control, Compliance & Continuous Improvement

- Ensure all operations meet required health, safety, legal, and quality standards
- Lead post-event evaluations and embed continuous improvement processes
- Drive a culture of operational excellence and accountability across teams

Team Leadership & Development

- Lead, mentor, and develop Ops Project Managers and wider operations team
- Set performance standards, KPIs, and development plans
- Build a high-performing, accountable, and motivated team culture
- Ensure the operations team evolves with the growth of the business

Required Education & Experience

- Bachelor's degree in Operations, Project Management, Business Administration, or related field
- 6 - 8+ years' experience in event operations, project delivery, or agency environments
- Proven experience leading teams and managing large-scale, complex projects
- Strong background in systems, process design, and operational efficiency

Languages

- Fluent English – required
- Fluent Kinyarwanda – required
- Fluent French – an advantage

Skills & Personal Attributes

- Highly organised with strong attention to detail
- Strong coordination and time management skills
- Proactive, reliable, and solutions-oriented
- Comfortable working in fast-paced, high-pressure environments
- Strong communication and interpersonal skills
- Ability to manage multiple priorities and adapt quickly
- High level of professionalism and accountability

Why Join Cube?

- Be part of high-impact projects across Africa and beyond
- Work at the intersection of strategy, content, and execution
- Gain hands-on experience in complex, high-level event delivery
- Join a dynamic, fast-paced team where initiative is valued
